CAREER PROFILE

A student at Bukidnon State University specializing in UI/UX Design and Technical Documentation. Proven track record in designing ethical, user-centered interfaces with a focus on accessibility and usability heuristics. Certified in First Aid and Basic Life Support by the Department of Health, and an active DRRM member — experience that directly informs the design of SALBA's emergency-oriented interface. Responsible for managing research documentation and ensuring digital interfaces adhere to data privacy standards.

KEY COMPETENCIES

- Design & Research: Figma, Adobe XD, and User Research/Testing.
- Ethics & Documentation: Technical Writing, Informed Consent Design, and Data Privacy Act (PH) Awareness.
- Technical Skills: React.js (Frontend Design) and Responsive Design.
- Emergency Preparedness: First Aid Response, Basic Life Support (BLS), and Disaster Risk Reduction Management.

EDUCATION

Tertiary: Bachelor of Science in Information Technology (Undergraduate)
Bukidnon State University | 2023 – 2027 |

Senior High School: STEM Strand
Bukidnon National High School | 2022–2024

Junior High School: Science Curriculum
Bukidnon National High School | 2018–2022

RESEARCH & CAPSTONE EXPERIENCE

UI/UX Designer & Documenter | SALBA: An AI-Assisted Emergency Reporting and Rescue Coordination Platform for Malaybalay City
Bukidnon State University | 2025 – Present

- Leads the architectural design of the React user interface with a focus on participant accessibility and emergency usability.
- Integrates DRRM and emergency response knowledge into the design of the SALBA reporting interface.
- Manages all technical documentation and ethics protocol drafting for REC submission.
- Designs digital Informed Consent Forms to ensure transparency and ethical user engagement.

SKILLS & TOOLS

- Design Tools: Figma, Adobe XD, Canva
- Frontend: React.js, HTML5/CSS3, Responsive Design
- Documentation: Technical Writing, Research Ethics, REC Protocol Drafting
